Black

All standard fans can be upgraded to include an LED light for an additional charge.

STRUXURE

Satin Nickel

Satin Nickel is one of our most popular colors and is a silver color with a very small hint of nickel texture.

White

White is our second most popular trim color and is a flat ceiling white (Sherwin Williams Ultra-White) color, designed to blend perfectly with most white ceilings.

Dark Bronze

Dark bronze is a very dark (almost black) bronze with a hint of metallic fleck texture. This blends very well with dark colored ceilings and matches nicely to oil rubbed bronze hardware.

Black

Black is one of our most popular colors.
